

digiSHOP CSS Class Guide

Alpha Release

Welcome to digiSHOP, an E-Commerce Software Solution for your business. Whether you are creating a small catalog, or you are looking to upgrade to a newer solution, digiSHOP is the solution for you.

Please take a few minutes to read the CSS Class Guide to become familiar with our CSS and which classes control which aspects of the DigiSHOP E-Commerce Software.

**** THIS IS NOT A MANUAL TO INSTRUCT YOU ON HOW TO CHANGE YOUR CSS OR HELP YOU LEARN CSS, HOWEVER THIS IS A MANUAL THAT BETTER CLASSIFIES OUR CSS AS TO WHICH CLASSES CONTROL WHICH PARTS OF THE SHOPPING CART!!! ****

THIS GUIDE IS UP-TO-DATE AS OF VERSION 5.0.15.

If you need help in understanding CSS, please visit the following link:

TABLE OF CONTENTS

I) General Classes

- a. body
- b. a
 - i. a:active
 - ii. a:visited
 - 1. a:visited:hover
 - iii. a:hover
 - iv. .sublink
 - v. a.sublink
 - 1. a.sublink:active
 - 2. a.sublink:visited
 - a. a.sublink:visited:hover
 - 3. a.sublink:hover
- c. h2, .page-title
 - i. h2 a
 - ii. h2 a:hover
- d. form
- e. .padMe
- f. .display-line
- g. .display-line-footer
- h. #bg
- i. #page
- j. #tabs
- k. #masthead
- l. .container
- m. hr
- n. .disabled
- o. .myerror, .pending
- p. .price, display-item-price
- q. .form-label
- r. .form-label-required
- s. .form-field
- t. #infolist
 - i. #infolist li
- u. input, textarea, select
- v. #orderStats
- w. .goLeft, .section
- x. .goRight, .logout
- y. .goUp
- z. .moneyFormat
- aa. #pageNote
- bb. .submitBtn
- cc. .submitOrder
- dd. #logo

II) Gift Certificates

- a. #giftCerts
 - i. #giftCerts h2
 - ii. #giftCerts #pageNote
 - iii. #giftCerts .form-label
 - iv. #giftCerts .form-field

- III) **Category List**
 - a. #categoryList
 - i. #categoryList h2
 - ii. #categoryList #topOptions .sort .option select
 - iii. #categoryList .content-odd1
 - iv. #categoryList .content-even1
 - v. #categoryList .title
 - 1. #categoryList .title a
 - a. #categoryList .title a:hover
 - vi. #categoryList .photo
 - vii. #categoryList .description
 - viii. #categoryList .details
 - 1. #categoryList .details .buttons
 - a. #categoryList .details .buttons .detailBtn
 - i. #categoryList .details .buttons .detailBtn a
 - 1. #categoryList .details .buttons .detailBtn a:hover
 - ix. #categoryList #btmOptions
 - 1. #categoryList #btmOptions .pagination
 - a. #categoryList #btmOptions .pagination a
 - i. #categoryList #btmOptions .pagination a:hover
- IV) **Category Grid**
 - a. #categoryGrid
 - i. #categoryGrid h2
 - ii. #categoryGrid .content-odd2
 - iii. #categoryGrid .content-even2
 - iv. #categoryGrid .content-odd3
 - v. #categoryGrid .content-even3
 - vi. #categoryGrid .content-odd4
 - vii. #categoryGrid .content-even4
 - viii. #categoryGrid .content-odd5
 - ix. #categoryGrid .content-even5
 - x. #categoryGrid .title
 - 1. #categoryGrid .title a
 - a. #categoryGrid .title a:hover
 - xi. #categoryGrid .photo
 - xii. #categoryGrid .description
 - xiii. #categoryGrid .details
 - 1. #categoryGrid .details .buttons
 - a. #categoryGrid .details .buttons .detailBtn
 - i. #categoryGrid .details .buttons .detailBtn a
 - 1. #categoryGrid .details .buttons .detailBtn a:hover
 - xiv. #categoryGrid #btmOptions
 - 1. #categoryGrid #btmOptions .pagination
 - a. #categoryGrid #btmOptions .pagination a
 - i. #categoryGrid #btmOptions .pagination a:hover
- V) **Affiliate Login**
 - a. #affiliateLogin
 - i. #affiliateLogin h2
- VI) **Customer Login**
 - a. #customerLogin
 - i. #customerLogin h2

- ii. #customerLogin #existingCustomer
- iii. #customerLogin #newCustomer
- b. #existingCustomer .hdr-title, #newCustomer .hdr-title ,#createCustomer .hdr-title , #passwordRemindCustomer .hdr-title
- c. #existingCustomer .body
- d. #newCustomer .body
 - i. #newCustomer .body input
- e. #customerLogin #passwordRemindCustomer, #customerLogin #createCustomer
- f. #customerLogin #createCustomer .body { }

VII) **Product Grid**

- a. #productGrid
 - i. #productGrid h2
 - ii. #productGrid #categoryDescription
 - iii. #productGrid table
 - iv. #productGrid #topOptions
 - 1. #productGrid #topOptions .search
 - 2. #productGrid #topOptions .myrow
 - 3. #productGrid #topOptions .display
 - 4. #productGrid #topOptions .sort
 - a. #productGrid #topOptions .sort .label
 - b. #productGrid #topOptions .sort .option
 - c. #productGrid #topOptions .sort .option select
 - v. #productGrid .content-even2
 - vi. #productGrid .content-odd2
 - vii. #productGrid .content-even3
 - viii. #productGrid .content-odd3
 - ix. #productGrid .content-even4
 - x. #productGrid .content-odd4
 - xi. #productGrid .content-even5
 - xii. #productGrid .content-odd5
 - xiii. #productGrid .title
 - 1. #productGrid .title a
 - a. #productGrid .title a:hover
 - xiv. #productGrid .photo
 - xv. #productGrid .description
 - xvi. #productGrid .details
 - 1. #productGrid .details .sprice
 - 2. #productGrid .details .buttons
 - a. #productGrid .details .buttons .detailBtn
 - i. #productGrid .details .buttons .detailBtn a
 - 1. #productGrid .details .buttons .detailBtn a:hover
 - b. #productGrid .details .buttons .addToCartBtn
 - i. #productGrid .details .buttons .addToCartBtn a
 - 1. #productGrid .details .buttons .addToCartBtn a:hover
 - 3. #productGrid .details .pricenote
 - xvii. #productGrid .options
 - 1. #productGrid .options .form-label
 - 2. #productGrid .options .form-field
 - xviii. #productGrid #btmOptions
 - 1. #productGrid #btmOptions .batchAddToCartButton
 - a. #productGrid #btmOptions .batchAddToCartButton a
 - i. #productGrid #btmOptions .batchAddToCartButton a:hover

2. #productGrid #btmOptions .pagination
 - a. #productGrid #btmOptions .pagination a
 - i. #productGrid #btmOptions .pagination a:hover

VIII) **Product List**

- a. #productList
 - i. #productList h2
 - ii. #productList #categoryDescription
 - iii. #productList table
 - iv. #productList #topOptions
 1. #productList #topOptions .search
 2. #productList #topOptions .display
 3. #productList #topOptions .sort
 - a. #productList #topOptions .sort .label
 - b. #productList #topOptions .sort .option
 - i. #productList #topOptions .sort .option select
 - v. #productList .content-even1
 - vi. #productList .content-odd1
 - vii. #productList .title
 1. #productList .title a
 - a. #productList .title a:hover
 - viii. #productList .photo
 - ix. #productList .description
 - x. #productList .details
 1. #productList .details .sprice
 2. #productList .details .buttons
 - a. #productList .details .buttons .detailBtn
 - i. #productList .details .buttons .detailBtn a
 1. #productList .details .buttons .detailBtn a:hover
 - ii. #productList .details .buttons .addToCartBtn
 - iii. #productList .details .buttons .addToCartBtn a
 - iv. #productList .details .buttons .addToCartBtn a:hover
 3. #productList .details .pricenote
 - xi. #productList .options
 1. #productList .options .qty
 - a. #productList .options .qty input
 2. #productList .options .form-label
 3. #productList .options .form-field
 - xii. #productList #btmOptions
 1. #productList #btmOptions .batchAddToCartButton
 - a. #productList #btmOptions .batchAddToCartButton a
 - i. #productList #btmOptions .batchAddToCartButton a:hover
 2. #productList #btmOptions .pagination
 - a. #productList #btmOptions .pagination a
 - i. #productList #btmOptions .pagination a:hover

IX) **Product Detail**

- a. #productDetail
 - i. #productDetail h2
 - ii. #productDetail #productPhotos
 - iii. #productDetail #prodThumbnails
 - iv. #productDetail #extraDetails
 - v. #productDetail .submitBtn

- vi. #productDetail #qtyPricing
 - 1. #productDetail #qtyPricing .hdr-title-left
 - 2. #productDetail #qtyPricing .hdr-title-right
 - 3. #productDetail #qtyPricing .list-left
 - 4. #productDetail #qtyPricing .list-right
- vii. #productDetail #price
- viii. #productDetail .form-label
- ix. #productDetail .form-field
- x. #productDetail #customerUpload
- xi. #productDetail #detailGroup
- xii. #productDetail #detailTabs
 - 1. #productDetail #detailTabs ul
 - 2. #productDetail #detailTabs li
 - 3. #productDetail #detailTabs a
 - a. #productDetail #detailTabs a .current
 - b. #productDetail #detailTabs a span
 - c. #productDetail #detailTabs a span
 - d. #productDetail #detailTabs a: hover span
 - e. #productDetail #detailTabs a: hover
 - f. #productDetail #detailTabs a: hover span
- xiii. #productDetail .hdr-title
- xiv. #productDetail .container
- xv. #productDetail .body
- xvi. #productDetail #productDescription
 - 1. #productDetail #productDescription p
- xvii. #productDetail #productReviews
- xviii. #productReviews .body
- xix. #productReviews .form-field
- xx. #productDetail #productReviews #productReviewsAddNote
- xxi. #productDetail #productReviews #productReviewsAdd
- xxii. #productDetail #productsRelated
 - 1. #productDetail #productsRelated .content-odd
 - 2. #productDetail #productsRelated .content-even
 - 3. #productDetail #productsRelated .title
 - a. #productDetail #productsRelated .title a
 - i. #productDetail #productsRelated .title a: hover
 - 4. #productDetail #productsRelated .photo
 - 5. #productDetail #productsRelated .details
 - a. #productDetail #productsRelated .details .sprice
 - b. #productDetail #productsRelated .details .detailsBtn
 - i. #productDetail #productsRelated .details .detailsBtn a
 - 1. #productDetail #productsRelated .details .detailsBtn a: hover

X) **Search Form**

- a. #searchForm
 - i. #searchForm h2
 - ii. #searchForm #searchFormCategory
 - 1. #searchForm #searchFormCategory .label
 - 2. #searchForm #searchFormCategory .field
 - 3. #searchForm #searchFormCategory select
 - iii. #searchForm #searchFormVendor
 - 1. #searchForm #searchFormVendor .label
 - 2. #searchForm #searchFormVendor .field
 - 3. #searchForm #searchFormVendor select

- iv. #searchForm #searchFormKeywords
 - 1. #searchForm #searchFormKeywords .label
 - 2. #searchForm #searchFormKeywords .field
 - 3. #searchForm #searchFormKeywords input
- v. #searchForm #searchFormSubmit
 - 1. #searchForm #searchFormSubmit .button

XI) **Registry Search Form**

- a. #registrySearchForm
 - i. #registrySearchForm h2
 - ii. #registrySearchForm #searchFormKeywords
 - 1. #registrySearchForm #searchFormKeywords .label
 - 2. #registrySearchForm #searchFormKeywords .field
 - 3. #registrySearchForm #searchFormKeywords input
 - iii. #registrySearchForm #searchFormSubmit
 - 1. #registrySearchForm #searchFormSubmit .button

XII) **View Cart**

- a. #viewCart
 - i. #viewCart h2
 - ii. #viewCart p
 - iii. #viewCart #pageNote
 - iv. #viewCart #pageError
 - v. #viewCart #cartItems
 - 1. #viewCart #cartItems thead tr th
 - 2. #viewCart #cartItems tbody tr td
 - 3. #viewCart #cartItems .cartError
 - 4. #viewCart #cartItems .normal
 - 5. #viewCart #cartItems .cartWarning
 - vi. #viewCart #cartInfo
 - vii. #viewCart #cartNumItems
 - viii. #viewCart #cartCoupon
 - ix. #viewCart #cartAmounts
 - 1. #viewCart #cartAmounts .field-link
 - 2. #viewCart #cartAmounts .field-price
 - 3. #viewCart #cartAmounts .field-label
 - x. #viewCart #cartButtons
 - xi. #viewCart .gatewayButtons
 - xii. #viewCart #crossSell
 - 1. #viewCart #crossSell .content-even
 - 2. #viewCart #crossSell .content-odd
 - 3. #viewCart #crossSell .title
 - a. #viewCart #crossSell .title a
 - i. #viewCart #crossSell .title a:hover
 - 4. #viewCart #crossSell .photo
 - 5. #viewCart #crossSell .details
 - a. #viewCart #crossSell .details .detailsBtn
 - i. #viewCart #crossSell .details .detailsBtn a
 - 1. #viewCart #crossSell .details .detailsBtn a:hover

XIII) **Pop-Up Shipping**

- a. #popupShipping
 - i. #popupShipping h2
 - ii. #popupShipping #pageNote

- iii. #popupShipping #serviceLogo

XIV) **Checkout OnePage**

- a. #checkoutOnePage
 - i. #checkoutOnePage h2
 - ii. #checkoutOnePage .form-label
 - iii. #checkoutOnePage .form-label-required
 - iv. #checkoutOnePage #cartItems
 - 1. #checkoutOnePage #cartItems thead tr th
 - 2. #checkoutOnePage #cartItems tbody tr td
 - 3. #checkoutOnePage #cartItems .cartError
 - 4. #checkoutOnePage #cartItems .normal
 - 5. #checkoutOnePage #cartItems .cartWarning
 - v. #checkoutOnePage #cartInfo
 - vi. #checkoutOnePage #cartAmounts
 - 1. #checkoutOnePage #cartAmounts .field-link
 - 2. #checkoutOnePage #cartAmounts .field-price
 - 3. #checkoutOnePage #cartAmounts .field-label
 - vii. #checkoutOnePage #existingCustomer
 - 1. #checkoutOnePage #existingCustomer .hdr-title
 - 2. #checkoutOnePage #existingCustomer .body
 - viii. #checkoutOnePage #billAddress
 - 1. #checkoutOnePage #billAddress table
 - ix. #checkoutOnePage #shipAddress
 - 1. #checkoutOnePage #shipAddress table
 - x. #checkoutOnePage #shipMethod
 - 1. #checkoutOnePage #shipMethod table
 - a. #checkoutOnePage #shipMethod table .multiShipOptions
 - xi. #checkoutOnePage #paymentInfo
 - 1. #checkoutOnePage #paymentInfo table
 - xii. #checkoutOnePage #totalsInfo
 - 1. #checkoutOnePage #totalsInfo .totalLabel
 - 2. #checkoutOnePage #totalsInfo .totalField
 - 3. #checkoutOnePage #totalsInfo #grand_total_div
 - xiii. #checkoutOnePage #checkoutSubscription
 - 1. #checkoutOnePage #checkoutSubscription table

XV) **Checkout Billing**

- a. #checkoutBilling
 - i. #checkoutBilling .form-label
 - ii. #checkoutBilling .form-label-required
 - iii. #checkoutBilling .form-field

XVI) **Checkout Shipping**

- a. #checkoutShipping
 - i. #checkoutShipping .form-label
 - ii. #checkoutShipping .form-label-required
 - iii. #checkoutShipping .form-field

XVII) **Checkout Payment**

- a. #checkoutPayment
 - i. #checkoutPayment .form-label
 - ii. #checkoutPayment .form-field
 - iii. #checkoutPayment #paymentOpts
 - 1. #checkoutPayment #paymentOpts .form-label

- 2. #checkoutPayment #paymentOpts .form-field
- iv. #checkoutPayment #spacer
- v. #checkoutPayment .pageNote

XVIII) **Checkout Subscription**

- a. #checkoutSubscription
 - i. #checkoutSubscription .form-label
 - ii. #checkoutSubscription .form-field
 - iii. #checkoutSubscription #spacer

XIX) **Checkout Confirm**

- a. #checkoutConfirm
 - i. #checkoutConfirm h2
 - ii. #checkoutConfirm #billInfo
 - iii. #checkoutConfirm #shipInfo
 - iv. #checkoutConfirm #paymentInfo
 - v. #checkoutConfirm #orderDetails
 - 1. #checkoutConfirm #orderDetails .list
 - vi. #checkoutConfirm .hdr-title
 - vii. #checkoutConfirm .body
- b. .submitBtn
- c. .submitOrder
- d. .pageNote

XX) **Checkout Complete**

- a. #checkoutComplete
 - i. #checkoutComplete .container
 - ii. #checkoutComplete #pageNote
 - iii. #checkoutComplete #downloadFiles
 - 1. #checkoutComplete #downloadFiles input
 - iv. #checkoutComplete .hdr-title
 - v. #checkoutComplete .container input

XXI) **Client Account**

- a. #clientAccount
 - i. #clientAccount h2
 - ii. #clientAccount .section
 - iii. #clientAccount .logout
 - 1. #clientAccount .logout a
 - a. #clientAccount .logout a:hover
 - iv. #clientAccount #billInfo
 - 1. #clientAccount #billInfo a
 - v. #clientAccount #shipInfo
 - 1. #clientAccount #shipInfo a
 - vi. #clientAccount #paymentInfo
 - vii. #clientAccount #subscriptionBillInfo
 - viii. #clientAccount #subscriptionShipInfo
 - ix. #clientAccount #subscriptionPaymentInfo
 - x. #clientAccount #orderDetails
 - 1. #clientAccount #orderDetails .list
 - xi. #clientAccount .hdr-title
 - xii. #clientAccount .body
 - xiii. #clientAccount #orderList .title, #clientAccount #subscriptionOrderList .title
 - xiv. #clientAccount #orderList, #clientAccount #subscriptionOrderList

- xv. #clientAccount #orderList thead th, #clientAccount #subscriptionOrderList thead th
- xvi. #clientAccount #orderList tbody tr td, #clientAccount #subscriptionOrderList tbody tr td
- xvii. #clientAccount #orderList .buttons, #clientAccount #subscriptionOrderList .buttons
- xviii. #clientAccount #orderList thead tr th a, #clientAccount #subscriptionOrderList thead tr th a
 - 1. #clientAccount #orderList thead tr th a:hover, #clientAccount #subscriptionOrderList thead tr th a:hover
- xix. #clientAccount #orderList table, #clientAccount #subscriptionOrderList table
 - 1. #clientAccount #orderList table thead th, #clientAccount #subscriptionOrderList table thead th
 - 2. #clientAccount #orderList table tbody, #clientAccount #orderList table tbody tr td, #clientAccount #subscriptionOrderList table tbody, #clientAccount #subscriptionOrderList table tbody tr td
- xx. #clientAccount #orderList .outOfStock
- xxi. #clientAccount #orderList .exceedingStock
- xxii. #clientAccount #myAccount
- xxiii. #clientAccount #pageNote, #clientAccount .pageNote
- xxiv. #clientAccount #clientAccount .body
- xxv. #clientAccount .all-link
- xxvi. #clientAccount .links
- xxvii. #clientAccount .buttons
- xxviii. #clientAccount #otherStats
- xxix. #clientAccount .points
- xxx. #clientAccount .pagination
 - 1. #clientAccount .pagination a
 - a. #clientAccount .pagination a:hover
- xxxi. #clientAccount .myerror
- xxxii. #clientAccount .adminFile
- xxxiii. #clientAccount #outOfStock
- xxxiv. #clientAccount #exceedingStock

XXII) **Vendor Login**

- a. #vendorLogin
 - i. #vendorLogin h2
 - ii. #vendorLogin #pageNote
 - iii. #vendorLogin .form-label
 - iv. #vendorLogin .form-field

XXIII) **Vendor Account**

- a. #vendorAccount
 - i. #vendorAccount h2
 - ii. #vendorAccount hr
 - iii. #vendorAccount .vendorlink
 - iv. #vendorAccount .pagination
 - v. #vendorAccount #pageNote
 - vi. #vendorAccount .myerror
 - vii. #vendorAccount .section
 - viii. #vendorAccount .logout
 - 1. #vendorAccount .logout a
 - a. #vendorAccount .logout a:hover
 - ix. #vendorAccount #billInfo
 - x. #vendorAccount #orderDetails

- 1. #vendorAccount #orderDetails .list
- xi. #vendorAccount .hdr-title
- xii. #vendorAccount .body
- xiii. #vendorAccount #myAccount
- xiv. #vendorAccount #orderList
 - 1. #vendorAccount #orderList .title
 - 2. #vendorAccount #orderList thead th
 - 3. #vendorAccount #orderList tbody tr td
 - 4. #vendorAccount #orderList .buttons
 - 5. #vendorAccount #orderList thead tr th a
 - a. #vendorAccount #orderList thead tr th a:hover
 - 6. #vendorAccount #orderList table
 - a. #vendorAccount #orderList table thead th
 - b. #vendorAccount #orderList table tbody, #vendorAccount #orderList table tbody tr td
- xv. #vendorAccount .buttons
- xvi. #vendorAccount #billInfo
- xvii. #vendorAccount #otherStats
- xviii. #vendorAccount .large
- xix. #vendorAccount .productActionButtons
- xx. #vendorAccount .productActionOptions
- xxi. #vendorAccount #productList
 - 1. #vendorAccount #productList thead tr th
 - 2. #vendorAccount #productList thead tr td
- xxii. #vendorAccount #vendorTabs
 - 1. #vendorAccount #vendorTabs .tabs-on
 - 2. #vendorAccount #vendorTabs .tabs-off
- xxiii. #vendorAccount .vendorTable

XXIV) **Registry List**

- a. #registryList
 - i. #registryList .content-even
 - ii. #registryList .content-odd
 - iii. #registryList .title
 - iv. #registryList #registryListResults

CSS Class Guide

General Classes

All classes listed below control the visual aspect of all content outside of any

b. **body**

Base class for the HTML body. This class is the very first class called and is primarily the default class for the entire CSS document. (i.e. If something lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "body" class)

c. **a**

Base class for all hyperlinks. This class is the very first class that places styles upon hyperlinks and is primarily the default hyperlink class (i.e. If a hyperlink lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a" class)

i. **a:active**

Base class for all active hyperlinks. This class is the very first class that places styles upon active hyperlinks and is primarily the default active hyperlink class (i.e. If an active hyperlink lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a:active" class)

ii. **a:visited**

Base class for all visited hyperlinks. This class is the very first class that places styles upon visited hyperlinks and is primarily the default visited hyperlink class (i.e. If a visited hyperlink lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a:visited" class)

1. **a:visited:hover**

Base class for hovering over all visited hyperlinks. This class is the very first class that adds styles when hovering over visited hyperlinks and is primarily the default visited hover hyperlink class (i.e. If you hover over a visited hyperlink that lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a:visited:hover" class)

iii. **a:hover**

Base class for hovering over all non-visited hyperlinks. This class is the very first class that adds styles when hovering over non-visited hyperlinks and is primarily the default hover hyperlink class (i.e. If you hover over a non-visited hyperlink that lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a:hover" class)

iv. **.sublink**

Base class for all sublinks not referenced through the "a" class (Non-primary links that are, in most cases, of smaller font-size to distinguish them from ordinary links). This class is the very first class that places styles upon sublinks not referenced through the "a" class and is primarily the default sublink class for sublinks not referenced through the "a" class (i.e. If a sublink not referenced through the "a" class lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the ".sublink" class)

v. **a.sublink**

Base class for all sublinks referenced through the "a" class (Non-primary links that are, in most cases, of smaller font-size to distinguish them for ordinary links). This class is the very first class that places styles upon sublinks referenced through the "a" class and is primarily the default sublink class for sublinks referenced through the "a" class (i.e. If a sublink referenced through the "a" class lies outside the realm of ALL OTHER css classes, it would

reflect the styles implemented by the "a.sublink" class)

1. **a.sublink:active**

Base class for all active sublinks referenced through the "a" class. This class is the very first class that places styles upon active sublinks referenced through the "a" class and is primarily the default active sublink class for sublinks referenced through the "a" class (i.e. If an active sublink referenced through the "a" class lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a.sublink:active" class)

2. **a.sublink:visited**

Base class for all visited sublinks referenced through the "a" class. This class is the very first class that places styles upon visited sublinks referenced through the "a" class and is primarily the default visited sublink class for sublinks referenced through the "a" class (i.e. If a visited sublink referenced through the "a" class lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a.sublink:visited" class)

a. **a.sublink:visited:hover**

Base class for hovering over all visited sublinks referenced through the "a" class. This class is the very first class that places styles upon hovered over visited sublinks referenced through the "a" class and is primarily the default visited sublink class for sublinks referenced through the "a" class that you are hovering over (i.e. If a visited sublink that you are hovering over referenced through the "a" class lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a.sublink:visited:hover" class)

3. **a.sublink:hover**

Base class for hovering over all sublinks referenced through the "a" class. This class is the very first class that places styles upon hovered over sublinks referenced through the "a" class and is primarily the default sublink class for sublinks referenced through the "a" class that you are hovering over (i.e. If a sublink that you are hovering over referenced through the "a" class lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "a.sublink:hover" class)

d. **h2, .page-title**

Base class for all page titles. This class is the very first class that places styles upon the page title and is primarily the default page title class (i.e. If a page title lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "h2, .page-title" class)

i. **h2 a**

Base class for all hyperlinks in page titles. This class is the very first class that places styles upon the hyperlinks in page title and is primarily the default hyperlinks in page title class (i.e. If a hyperlink in a page title lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "h2 a" class)

ii. **h2 a:hover**

Base class for hovering over all hyperlinks in page titles. This class is the very first class that places styles for hovering over hyperlinks in page title and is primarily the default hyperlinks in page title class when you are hovering over them (i.e. If you are hovering over a hyperlink in a page title that lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "h2 a:hover" class)

e. **form**

Base class for all forms. This class is the very first class that places styles upon any form and is primarily the default form class (i.e. If a form lies outside the realm of ALL OTHER css classes, it would reflect the styles implemented by the "form" class)

- f. **.padMe**
THIS CLASS IS DEPRICATED
- g. **.display-line**
THIS CLASS IS DEPRICATED
- h. **.display-line-footer**
THIS CLASS IS DEPRICATED
- i. **#bg**
This class controls the general background aspects controlled in the header template
- j. **#page**
This class controls the page area
- k. **#tabs**
This class controls the tabs
- l. **#masthead**
This class controls the master header
- m. **.container**
This class controls the container
- n. **hr**
This class controls the horizontal rule
- o. **.disabled**
This class controls the disabled
- p. **.myerror, .pending**
This class controls the error messages or pending messages
- q. **.price, display-item-price**
This class controls the price or display item price
- r. **.form-label**
This class controls the form labels
- s. **.form-label-required**
This class controls the required form labels
- t. **.form-field**
This class controls the form fields
- u. **#infolist**
This class controls the info list
 - i. **#infolist li**
This class controls the list item in the info list
- v. **input, textarea, select**
This class controls the inputs, textareas, or selects
- w. **#orderStats**
This class controls the order stats
- x. **.goLeft, .section**
This class controls the go left area and the section area

- y. `.goRight, .logout`
This class controls the go right area and the logout area
- z. `.goUp`
This class controls the go up area
- aa. `.moneyFormat`
This class controls the money formatting
- bb. `#pageNote`
This class controls the page notes
- cc. `.submitBtn`
This class controls the submit button
- dd. `.submitOrder`
This class controls the submit order area
- ee. `#logo`
This class controls the logo area

Gift Certificates

#giftCerts

This class controls the entire scope of the Gift Certificates.

- i. `#giftCerts h2`
This class controls the header title for the Gift Certificates
- ii. `#giftCerts #pageNote`
THIS CLASS IS DEPRICATED
- iii. `#giftCerts .form-label`
This class controls the labels affiliated with any input fields associated with gift certificates (i.e. "Qty", "Size", etc.)
- iv. `#giftCerts .form-field`
This class controls the any input field associated with the gift certificates

Category List

#categoryList

This class controls the entire scope of the Category List (Text and Thumbnail List selection in the Settings->Product Settings)

- i. `#categoryList h2`
This class controls the header titles for the category list
- ii. `#categoryList #topOptions .sort .option select`
THIS CLASS IS DEPRICATED
- iii. `#categoryList .content-odd1`
This class controls the column formatting of the category list
- iv. `#categoryList .content-even1`
This class controls the column formatting of the category list
- v. `#categoryList .title`
This class controls the category title for the category list

1. **#categoryList .title a**
This class controls the link on the category title for the category list
 - a. **#categoryList .title a:hover**
This class controls the link while hovering over the category title for the category list
- vi. **#categoryList .photo**
This class controls the category photo for the category list
- vii. **#categoryList .description**
This class controls the category description for the category list
- viii. **#categoryList .details**
THIS CLASS IS DEPRICATED
 1. **#categoryList .details .buttons**
THIS CLASS IS DEPRICATED
 - a. **#categoryList .details .buttons .detailBtn**
THIS CLASS IS DEPRICATED
 - i. **#categoryList .details .buttons .detailBtn a**
THIS CLASS IS DEPRICATED
 1. **#categoryList .details .buttons .detailBtn a:hover**
THIS CLASS IS DEPRICATED
- ix. **#categoryList #btmOptions**
This class controls the bottom options for the category list
 1. **#categoryList #btmOptions .pagination**
This class controls the pagination (Page: 1,2,3,4 / etc.) in the bottom options for the category list
 - a. **#categoryList #btmOptions .pagination a**
This class controls the pagination link in the bottom options for the category list
 - i. **#categoryList #btmOptions .pagination a:hover**
This class controls the pagination link while hovering over it in the bottom options for the category list

Category Grid

- a. **#categoryGrid**
This class controls the entire scope of the Category Grid (Text and Thumbnail Grid selection in the Settings->Product Settings)
 - i. **#categoryGrid h2**
This class controls the header titles for the category grid
 - ii. **#categoryGrid .content-odd2**
This class controls the 1st column for the 2 column formatting of the category grid
 - iii. **#categoryGrid .content-even2**
This class controls the 2nd column for the 2 column formatting of the category grid

- iv. **#categoryGrid .content-odd3**
This class controls the 1st and 3rd columns for the 3 column formatting of the category grid
- v. **#categoryGrid .content-even3**
This class controls the 2nd column for the 3 column formatting of the category grid
- vi. **#categoryGrid .content-odd4**
This class controls the 1st and 3rd columns for the 4 column formatting of the category grid
- vii. **#categoryGrid .content-even4**
This class controls the 2nd and 4th columns for the 4 column formatting of the category grid
- viii. **#categoryGrid .content-odd5**
This class controls the 1st, 3rd, and 5th columns for the 5 column formatting of the category grid
- ix. **#categoryGrid .content-even5**
This class controls the 2nd and 4th columns for the 5 column formatting of the category grid
- x. **#categoryGrid .title**
This class controls the category title for the category grid
 - 1. **#categoryGrid .title a**
This class controls the link on the category title for the category grid
 - a. **#categoryGrid .title a:hover**
This class controls the link while hovering over the category title on the category grid
- xi. **#categoryGrid .photo**
This class controls the category photo on the category grid
- xii. **#categoryGrid .description**
This class controls the category description on the category grid
- xiii. **#categoryGrid .details**
THIS CLASS IS DEPRICATED
 - 1. **#categoryGrid .details .buttons**
THIS CLASS IS DEPRICATED
 - a. **#categoryGrid .details .buttons .detailBtn**
THIS CLASS IS DEPRICATED
 - i. **#categoryGrid .details .buttons .detailBtn a**
THIS CLASS IS DEPRICATED
 - 2. **#categoryGrid .details .buttons .detailBtn a:hover**
THIS CLASS IS DEPRICATED
- xiv. **#categoryGrid #btmOptions**
This class controls the bottom options on the category grid
 - 1. **#categoryGrid #btmOptions .pagination**
This class controls the pagination in the bottom options of the category grid

- a. **#categoryGrid #btmOptions .pagination a**
This class controls the pagination links in the bottom options of the category grid

#categoryGrid #btmOptions .pagination a:hover
This class controls the pagination links while hovering over them in the bottom options of the category grid

Affiliate Login

#affiliateLogin

This class controls the entire scope of the affiliate login

- i. **#affiliateLogin h2**
This class controls the header titles of the affiliate login

Customer Login

#customerLogin

This class controls the entire scope of the customer login

- i. **#customerLogin h2**
This class controls the header titles of the customer login
- ii. **#customerLogin #existingCustomer**
This class controls the existing customer area of the customer login
- iii. **#customerLogin #newCustomer**
This class controls the new customer area of the customer login

#existingCustomer .hdr-title, #newCustomer .hdr-title, #createCustomer .hdr-title, #passwordRemindCustomer .hdr-title
This class controls the the header titles in the existing customer area, new customer area, create customer area, and customer password reminder area of the customer login

#existingCustomer .body
This class controls the body of the existing customer area of the customer login

#newCustomer .body
This class controls the body of the new customer area of the customer login

- i. **#newCustomer .body input**
This class controls the input fields in the body of the new customer area of the customer login

#customerLogin #passwordRemindCustomer, #customerLogin #createCustomer
This class controls the the customer password reminder and the create customer areas of the customer login

#customerLogin #createCustomer .body { }
This class controls the create customer body of the customer login

Product Grid

#productGrid

This class controls the entire scope of the product grid

- i. **#productGrid h2**
This class controls the header titles of the product grid
- ii. **#productGrid #categoryDescription**
This class controls the current categories' description in the product grid
- iii. **#productGrid table**
This class controls the tables of the product grid
- iv. **#productGrid #topOptions**
This class controls the top options of the product grid
 - 1. **#productGrid #topOptions .search**
This class controls the product search of the product grid
 - 2. **#productGrid #topOptions .myrow**
This class controls the top row ("Displaying x-x of x products...", etc) of the product grid
 - 3. **#productGrid #topOptions .display**
This class controls the "Displaying x-x of x products" text of the product grid
 - 4. **#productGrid #topOptions .sort**
This class controls the "Sort by:" area of the product grid
 - a. **#productGrid #topOptions .sort .label**
This class controls the "Sort by:" text of the product grid
 - b. **#productGrid #topOptions .sort .option**
This class controls the "Sort by:" options of the product grid
 - c. **#productGrid #topOptions .sort .option select**
This class controls the "Sort by:" individual options of the product grid
- v. **#productGrid .content-even2**
This class controls the 1st column for the 2 column formatting of the product grid
- vi. **#productGrid .content-odd2**
This class controls the 2nd column for the 2 column formatting of the product grid
- vii. **#productGrid .content-even3**
This class controls the 1st and 3rd columns for the 3 column formatting of the product grid
- viii. **#productGrid .content-odd3**
This class controls the 2nd column for the 3 column formatting of the product grid
- ix. **#productGrid .content-even4**
This class controls the 1st and 3rd columns for the 4 column formatting of the product grid
- x. **#productGrid .content-odd4**
This class controls the 2nd and 4th columns for the 4 column formatting of the product grid
- xi. **#productGrid .content-even5**
This class controls the 1st, 3rd, and 5th columns for the 5 column formatting of the product grid
- xii. **#productGrid .content-odd5**
This class controls the 2nd and 4th columns for the 5 column formatting of the product grid

- xiii. **#productGrid .title**
This class controls the product title of the product grid
 - 1. **#productGrid .title a**
This class controls the link on the product title of the product grid
 - a. **#productGrid .title a:hover**
This class controls the the link while hovering over the product title of the product grid
 - xiv. **#productGrid .photo**
This class controls the product photo of product grid
 - xv. **#productGrid .description**
This class controls the product description of the product grid
 - xvi. **#productGrid .details**
This class controls the product details of the product grid
 - 1. **#productGrid .details .sprice**
This class controls the product price of the product grid
 - 2. **#productGrid .details .buttons**
This class controls the product buttons of the product grid
 - a. **#productGrid .details .buttons .detailBtn**
This class controls the product's "Details" button of the product grid
 - ii. **#productGrid .details .buttons .detailBtn a**
This class controls the product's "Details" button link of the product grid
 - 3. **#productGrid .details .buttons .detailBtn a:hover**
This class controls the product's "Details" button link while hovering over it of the product grid
 - b. **#productGrid .details .buttons .addToCartBtn**
This class controls the product's "Add to Cart" button of the product grid
 - iii. **#productGrid .details .buttons .addToCartBtn a**
This class controls the product's "Add to Cart" button link of the product grid
 - 4. **#productGrid .details .buttons .addToCartBtn a:hover**
This class controls the product's "Add to Cart" button link while hovering over it of the product grid
 - 3. **#productGrid .details .pricenote**
This class controls the product's "Call/Email" note of the product grid
- xvii. **#productGrid .options**
This class controls the product's options of the product grid

1. **#productGrid .options .form-label**
This class controls the product's option form label of the product grid
 2. **#productGrid .options .form-field**
This class controls the product's option form field of the product grid
- xviii. **#productGrid #btmOptions**
This class controls the bottom options of the product grid
1. **#productGrid #btmOptions .batchAddToCartButton**
This class controls the Batch Add to Cart button of the product grid
 - a. **#productGrid #btmOptions .batchAddToCartButton a**
This class controls the Batch Add to Cart button link of the product grid
 - iv. **#productGrid #btmOptions .batchAddToCartButton a:hover**
This class controls the Batch Add to Cart button link while hovering over it of the product grid
 2. **#productGrid #btmOptions .pagination**
This class controls the pagination in the bottom options of the product grid
 - a. **#productGrid #btmOptions .pagination a**
This class controls the pagination links in the bottom options of the product grid
 - v. **#productGrid #btmOptions .pagination a:hover**
This class controls the pagination links while hovering over them in the bottom options of the product grid

Product List

#productList

This class controls the entire scope of the product list (Single Column format of the product grid)

- i. **#productList h2**
This class controls the header titles of the product list
- ii. **#productList #categoryDescription**
This class controls the current categories' description of the product list
- iii. **#productList table**
This class controls the tables of the product list
- iv. **#productList #topOptions**
This class controls the top options of the product list
 1. **#productList #topOptions .search**
This class controls the product search in the top options of the product list
 2. **#productList #topOptions .display**
This class controls the "Displaying x-x of x products" in the top options of the product list
 3. **#productList #topOptions .sort**
This class controls the product sort in the top options of the product list

- a. **#productList #topOptions .sort .label**
This class controls the “Sort By:” label in the top options of the product list
- b. **#productList #topOptions .sort .option**
This class controls the product sort options in the top options of the product list
 - i. **#productList #topOptions .sort .option select**
This class controls the product sort selected option in the top options of the product list
- v. **#productList .content-even1**
This class controls the column formatting of the category list
- vi. **#productList .content-odd1**
This class controls the column formatting of the category list
- vii. **#productList .title**
This class controls the product title of the product list
 - 1. **#productList .title a**
This class controls the product title link of the product list
 - a. **#productList .title a:hover**
This class controls the product title link while hovering over it of the product list
- viii. **#productList .photo**
This class controls the product's photo of the product list
- ix. **#productList .description**
This class controls the product's description of the product list
- x. **#productList .details**
This class controls the product's details of the product list
 - 1. **#productList .details .sprice**
This class controls the product's price of the product list
 - 2. **#productList .details .buttons**
This class controls the buttons in the product's details of the product list
 - a. **#productList .details .buttons .detailBtn**
This class controls the “Details” button of the product list
 - i. **#productList .details .buttons .detailBtn a**
This class controls the “Details” button link of the product list
 - 5. **#productList .details .buttons .detailBtn a:hover**
This class controls the “Details” button link while hovering over it of the product list
 - ii. **#productList .details .buttons .addToCartBtn**
This class controls the “Add to Cart” button of the product list
 - iii. **#productList .details .buttons .addToCartBtn a**
This class controls the “Add to Cart” button link of the product list

- iv. **#productList .details .buttons .addToCartBtn a:hover**
This class controls the “Add to Cart” button link while hovering over it of the product list
 - 3. **#productList .details .pricenote**
This class controls the “Call/Email” note of the product list
- xi. **#productList .options**
This class controls the product’s options of the product list
 - 1. **#productList .options .qty**
This class controls the product’s quantity of the product list
 - a. **#productList .options .qty input**
This class controls the input field for the product’s quantity of the product list
 - 2. **#productList .options .form-label**
This class controls the form label for the product’s options of the product list
 - 3. **#productList .options .form-field**
This class controls the form field for the product’s options of the product list
- xii. **#productList #btmOptions**
This class controls the bottom options of the product list
 - 1. **#productList #btmOptions .batchAddToCartButton**
This class controls the “Batch Add To Cart” button in the bottom options of the product list
 - a. **#productList #btmOptions .batchAddToCartButton a**
This class controls the “Batch Add To Cart” button link in the bottom options of the product list
 - i. **#productList #btmOptions .batchAddToCartButton a:hover**
This class controls the “Batch Add To Cart” button link while hovering over it in the bottom options of the product list
 - 2. **#productList #btmOptions .pagination**
This class controls the pagination in the bottom options of the product list
 - a. **#productList #btmOptions .pagination a**
This class controls the pagination link in the bottom options of the product list
 - i. **#productList #btmOptions .pagination a:hover**
This class controls the pagination link while hovering over it in the bottom options of the product list

Product Detail

#productDetail

This class controls the entire scope of the product detail

- xiii. **#productDetail h2**
This class controls the header titles of the product detail

- xiv. **#productDetail #productPhotos**
This class controls the product's photos of the product detail
- xv. **#productDetail #prodThumbnails**
This class controls the product's thumbnail photos of the product detail
- xvi. **#productDetail #extraDetails**
This class controls the product's extra details of the product detail
- xvii. **#productDetail .submitBtn**
This class controls the submit button of the product detail
- xxviii. **#productDetail #qtyPricing**
This class controls the Quantity Based Pricing table of the product detail
 - 1. **#productDetail #qtyPricing .hdr-title-left**
This class controls the left header title of the Quantity Based Pricing table of the product detail
 - 2. **#productDetail #qtyPricing .hdr-title-right**
This class controls the right header title of the Quantity Based Pricing table of the product detail
 - 3. **#productDetail #qtyPricing .list-left**
This class controls the left list items of the Quantity Based Pricing table of the product detail
 - 4. **#productDetail #qtyPricing .list-right**
This class controls the right list items of the Quantity Based Pricing table of the product detail
- xix. **#productDetail #price**
This class controls the price of the product detail
- xx. **#productDetail .form-label**
This class controls the form labels of the product detail
- xxi. **#productDetail .form-field**
This class controls the form fields of the product detail
- xxii. **#productDetail #customerUpload**
This class controls the customer file upload area of the product detail
- xxiii. **#productDetail #detailGroup**
This class controls the product reviews and related products grouping of the product detail
- xxiv. **#productDetail #detailTabs**
THIS CLASS IS DEPRICATED
 - 1. **#productDetail #detailTabs ul**
THIS CLASS IS DEPRICATED
 - 2. **#productDetail #detailTabs li**
THIS CLASS IS DEPRICATED
 - 3. **#productDetail #detailTabs a**
THIS CLASS IS DEPRICATED

- a. **#productDetail #detailTabs a .current**
THIS CLASS IS DEPRICATED
 - b. **#productDetail #detailTabs a span**
THIS CLASS IS DEPRICATED
 - c. **#productDetail #detailTabs a span**
THIS CLASS IS DEPRICATED
 - d. **#productDetail #detailTabs a:hover span**
THIS CLASS IS DEPRICATED
 - e. **#productDetail #detailTabs a:hover**
THIS CLASS IS DEPRICATED
 - f. **#productDetail #detailTabs a:hover span**
THIS CLASS IS DEPRICATED
- xxv. **#productDetail .hdr-title**
This class controls the header titles of the product reviews and related products of the product detail
- xxvi. **#productDetail .container**
This class controls the container of the product detail
- xxvii. **#productDetail .body**
This class controls the body of the product detail
- xxviii. **#productDetail #productDescription**
This class controls the product description of the product detail
- 1. **#productDetail #productDescription p**
This class controls the paragraph tag of the product description of the product detail
- xxix. **#productDetail #productReviews**
This class controls the product reviews of the product detail
- xxx. **#productReviews .body**
This class controls the body of the product reviews
- xxxi. **#productReviews .form-field**
This class controls the form fields of the product reviews
- xxxii. **#productDetail #productReviews #productReviewsAddNote**
This class controls the Add Note to the product review of the product detail
- xxxiii. **#productDetail #productReviews #productReviewsAdd**
This class controls the Add Review to the product review of the product detail
- xxxiv. **#productDetail #productsRelated**
This class controls the related products of the product grid
- 1. **#productDetail #productsRelated .content-odd**
This class controls the odd columns of the related product listing of the product detail

2. **#productDetail #productsRelated .content-even**
This class controls the even columns of the related product listing of the product detail
3. **#productDetail #productsRelated .title**
This class controls the title of the related products of the product detail
 - a. **#productDetail #productsRelated .title a**
This class controls the title link of the related products of the product detail
 - i. **#productDetail #productsRelated .title a:hover**
This class controls the title link while hovering over it of the related products of the product detail
4. **#productDetail #productsRelated .photo**
This class controls the related product's photos of the product detail
5. **#productDetail #productsRelated .details**
This class controls the related product's details of the product detail
 - a. **#productDetail #productsRelated .details .sprice**
This class controls the related product's price of the product detail
 - b. **#productDetail #productsRelated .details .detailsBtn**
This class controls the related product's "Details" button of the product detail
 - i. **#productDetail #productsRelated .details .detailsBtn a**
This class controls the related product's "Details" button link of the product detail
 6. **#productDetail #productsRelated .details .detailsBtn a:hover**
This class controls the related product's "Details" button link while hovering over it of the product detail

Search Form

#searchForm

This class controls the entire scope of the Search

- i. **#searchForm h2**
This class controls the header titles of the Search
- ii. **#searchForm #searchFormCategory**
This class controls the Category area of the Search
 1. **#searchForm #searchFormCategory .label**
This class controls the Category label of the search
 2. **#searchForm #searchFormCategory .field**
This class controls the Category fields of the Search
 3. **#searchForm #searchFormCategory select**
This class controls the selected option of the Category fields of the Search

- iii. **#searchForm #searchFormVendor**
This class controls the Vendor area of the Search
 - 1. **#searchForm #searchFormVendor .label**
This class controls the Vendor label of the Search
 - 2. **#searchForm #searchFormVendor .field**
This class controls the Vendor fields of the Search
 - 3. **#searchForm #searchFormVendor select**
This class controls the selected option of the Vendor fields of the Search
- iv. **#searchForm #searchFormKeywords**
This class controls the Keywords area of the Search
 - 1. **#searchForm #searchFormKeywords .label**
This class controls the Keywords label of the Search
 - 2. **#searchForm #searchFormKeywords .field**
This class controls the Keywords fields of the Search
 - 3. **#searchForm #searchFormKeywords input**
This class controls the input in the Keywords fields of the Search
- v. **#searchForm #searchFormSubmit**
This class controls the submit button area of the Search
 - 1. **#searchForm #searchFormSubmit .button**
This class controls the submit button of the Search

Registry Search Form

- #registrySearchForm**
This class controls the entire scope of the Registry Search
 - i. **#registrySearchForm h2**
This class controls the header titles of the Registry Search
 - ii. **#registrySearchForm #searchFormKeywords**
This class controls the Keywords area of the Registry Search
 - 1. **#registrySearchForm #searchFormKeywords .label**
This class controls the Keywords label of the Registry Search
 - 2. **#registrySearchForm #searchFormKeywords .field**
This class controls the Keywords fields of the Registry Search
 - 3. **#registrySearchForm #searchFormKeywords input**
This class controls the input of the Keywords fields of the Registry Search
 - iii. **#registrySearchForm #searchFormSubmit**
This class controls the submit button area of the Registry Search
 - #registrySearchForm #searchFormSubmit .button**
This class controls the submit button of the Registry Search

View Cart

- #viewCart**
This class controls the entire scope of the View Cart

- i. **#viewCart h2**
This class controls the header titles of the View Cart
- ii. **#viewCart p**
This class controls the paragraph tag of the View Cart
- iii. **#viewCart #pageNote**
THIS CLASS IS DEPRICATED
- iv. **#viewCart #pageError**
This class controls any errors on the page of the View Cart
- v. **#viewCart #cartItems**
This class controls the cart items of the View Cart
 - #viewCart #cartItems thead tr th**
This class controls the table heads of the cart items of the View Cart
 - #viewCart #cartItems tbody tr td**
This class controls the table body of the cart items of the View Cart
 - #viewCart #cartItems .cartError**
This class controls the cart errors of the cart items of the View Cart
 - #viewCart #cartItems .normal**
THIS CLASS IS DEPRICATED
 - #viewCart #cartItems .cartWarning**
THIS CLASS IS DEPRICATED
- vi. **#viewCart #cartInfo**
This class controls the cart information of the View Cart
- vii. **#viewCart #cartNumItems**
This class controls the number of items of the cart of the View Cart
- viii. **#viewCart #cartCoupon**
This class controls the cart coupon of the View Cart
- ix. **#viewCart #cartAmounts**
This class controls the cart amounts (Subtotal, Shipping, etc.) of the View Cart
 - 1. **#viewCart #cartAmounts .field-link**
This class controls the cart amounts link of the View Cart
 - 2. **#viewCart #cartAmounts .field-price**
This class controls the cart amount price of the View Cart
 - 3. **#viewCart #cartAmounts .field-label**
This class controls the cart amount label of the View Cart
- x. **#viewCart #cartButtons**
This class controls the cart buttons of the View Cart
- xi. **#viewCart .gatewayButtons**
This class controls the express gateway buttons of the View Cart
- xii. **#viewCart #crossSell**
This class controls the cross sell products of the View Cart

1. **#viewCart #crossSell .content-even**
This class controls the column formatting of the cross sell products of the View Cart
2. **#viewCart #crossSell .content-odd**
This class controls the column formatting of the cross sell products of the View Cart
3. **#viewCart #crossSell .title**
This class controls the title of the cross sell products of the View Cart
 - a. **#viewCart #crossSell .title a**
This class controls the title link of the cross sell products of the View Cart
 - i. **#viewCart #crossSell .title a:hover**
This class controls the title link while hovering over it of the cross sell products of the View Cart
4. **#viewCart #crossSell .photo**
This class controls the cross sell products photos of the View Cart
5. **#viewCart #crossSell .details**
This class controls the cross sell products details of the View Cart
 - a. **#viewCart #crossSell .details .detailsBtn**
This class controls the cross sell products "Details" button of the View Cart
 - i. **#viewCart #crossSell .details .detailsBtn a**
This class controls the cross sell products "Details" button link of the View Cart
 1. **#viewCart #crossSell .details .detailsBtn a:hover**
This class controls the cross sell products "Details" button link while hovering over it of the View Cart

Pop-Up Shipping

- a. **#popupShipping**
This class controls the entire scope of the pop-up shipping page
 - i. **#popupShipping h2**
This class controls the header titles of the pop-up shipping page
 - ii. **#popupShipping #pageNote**
This class controls the notes on the page of the pop-up shipping page
 - iii. **#popupShipping #serviceLogo**
This class controls the shipping service logo area of the pop-up shipping page

Checkout OnePage

- a. **#checkoutOnePage**
This class controls the entire scope of the One-Page Checkout
 - i. **#checkoutOnePage h2**
This class controls the header titles of the One-Page Checkout

- ii. **#checkoutOnePage .form-label**
This class controls the form labels of the One-Page Checkout
- iii. **#checkoutOnePage .form-label-required**
This class controls the required form labels of the One-Page Checkout
- iv. **#checkoutOnePage #cartItems**
This class controls the cart items of the One-Page Checkout
 - 1. **#checkoutOnePage #cartItems thead tr th**
This class controls the table heads of the One-Page Checkout
 - 2. **#checkoutOnePage #cartItems tbody tr td**
This class controls the table body of the One-Page Checkout
 - 3. **#checkoutOnePage #cartItems .cartError**
This class controls the cart item error messages of the One-Page Checkout
 - 4. **#checkoutOnePage #cartItems .normal**
THIS CLASS IS DEPRICATED
 - 5. **#checkoutOnePage #cartItems .cartWarning**
This class controls the cart item warning message of the One-Page Checkout
- v. **#checkoutOnePage #cartInfo**
This class controls the cart info of the One-Page Checkout
- vi. **#checkoutOnePage #cartAmounts**
This class controls the cart amounts of the One-Page Checkout
 - 1. **#checkoutOnePage #cartAmounts .field-link**
This class controls the cart amounts link of the One-Page Checkout
 - 2. **#checkoutOnePage #cartAmounts .field-price**
This class controls the cart amounts price of the One-Page Checkout
 - 3. **#checkoutOnePage #cartAmounts .field-label**
This class controls the cart amounts label of the One-Page Checkout
- vii. **#checkoutOnePage #existingCustomer**
This class controls the existing customer area of the One-Page Checkout
 - 1. **#checkoutOnePage #existingCustomer .hdr-title**
This class controls the existing customer header of the One-Page Checkout
 - 2. **#checkoutOnePage #existingCustomer .body**
This class controls the existing customer body of the One-Page Checkout
- viii. **#checkoutOnePage #billAddress**
This class controls the billing address of the One-Page Checkout
 - 1. **#checkoutOnePage #billAddress table**
This class controls the billing address table of the One-Page Checkout
- ix. **#checkoutOnePage #shipAddress**
This class controls the shipping address of the One-Page Checkout
 - 1. **#checkoutOnePage #shipAddress table**
This class controls the shipping address table of the One-Page Checkout

- x. **#checkoutOnePage #shipMethod**
This class controls the shipping methods of the One-Page Checkout
 - 1. **#checkoutOnePage #shipMethod table**
This class controls the shipping methods table of the One-Page Checkout
 - b. **#checkoutOnePage #shipMethod table .multiShipOptions**
This class controls the shipping methods table multi-shipping method options of the One-Page Checkout
- xi. **#checkoutOnePage #paymentInfo**
This class controls the payment info of the One-Page Checkout
 - 1. **#checkoutOnePage #paymentInfo table**
This class controls the payment info table of the One-Page Checkout
- xii. **#checkoutOnePage #totalsInfo**
This class controls the totals info of the One-Page Checkout
 - 1. **#checkoutOnePage #totalsInfo .totalLabel**
This class controls the totals info label of the One-Page Checkout
 - 2. **#checkoutOnePage #totalsInfo .totalField**
This class controls the totals info field of the One-Page Checkout
 - 3. **#checkoutOnePage #totalsInfo #grand_total_div**
This class controls the totals info grand total of the One-Page Checkout
- xiii. **#checkoutOnePage #checkoutSubscription**
This class controls the subscription billing area of the One-Page Checkout
 - 1. **#checkoutOnePage #checkoutSubscription table**
This class controls the subscription billing area table of the One-Page Checkout

Checkout Billing

- a. **#checkoutBilling**
This class controls the entire scope of the Checkout Billing
 - i. **#checkoutBilling .form-label**
This class controls the form labels of the Checkout Billing
 - ii. **#checkoutBilling .form-label-required**
This class controls the required form labels of the Checkout Billing
 - iii. **#checkoutBilling .form-field**
This class controls the form fields of the Checkout Billing

Checkout Shipping

- a. **#checkoutShipping**
This class controls the entire scope of the Checkout Shipping
 - i. **#checkoutShipping .form-label**
This class controls the form labels of the Checkout Shipping

- ii. **#checkoutShipping .form-label-required**
This class controls the required form labels of the Checkout Shipping
- iii. **#checkoutShipping .form-field**
This class controls the form fields of the Checkout Shipping

Checkout Payment

- a. **#checkoutPayment**
This class controls the entire scope of the Checkout Payment
 - i. **#checkoutPayment .form-label**
This class controls the form labels of the Checkout Payment
 - ii. **#checkoutPayment .form-field**
This class controls the form fields of the Checkout Payment
 - iii. **#checkoutPayment #paymentOpts**
This class controls the payment options of the Checkout Payment
 - 2. **#checkoutPayment #paymentOpts .form-label**
This class controls the payment options form labels of the Checkout Payment
 - 3. **#checkoutPayment #paymentOpts .form-field**
This class controls the payment options form fields of the Checkout Payment
 - iv. **#checkoutPayment #spacer**
This class controls the spacer of the Checkout Payment
 - v. **#checkoutPayment .pageNote**
This class controls the page notes of the Checkout Payment

Checkout Subscription

- #checkoutSubscription**
This class controls the entire scope of the Checkout Subscription
 - i. **#checkoutSubscription .form-label**
This class controls the form labels of the Checkout Subscription
 - ii. **#checkoutSubscription .form-field**
This class controls the form fields of the Checkout Subscription
 - iii. **#checkoutSubscription #spacer**
This class controls the spacer of the Checkout Subscription

Checkout Confirm

- a. **#checkoutConfirm**
This class controls the entire scope of the Checkout Confirm
 - #checkoutConfirm h2**
This class controls the header titles of the Checkout Confirm
 - #checkoutConfirm #billInfo**
This class controls the billing info of the Checkout Confirm
 - #checkoutConfirm #shipInfo**
This class controls the shipping info of the Checkout Confirm

#checkoutConfirm #paymentInfo

This class controls the payment info of the Checkout Confirm

#checkoutConfirm #orderDetails

This class controls the order details of the Checkout Confirm

1. **#checkoutConfirm #orderDetails .list**

This class controls the order details list of the Checkout Confirm

#checkoutConfirm .hdr-title

This class controls the interior header titles of the Checkout Confirm

#checkoutConfirm .body

This class controls the body of the Checkout Confirm

b. **.submitBtn**

This class controls the "Submit Order" button of the Checkout Confirm

c. **.submitOrder**

This class controls the submit order area of the Checkout Confirm

d. **.pageNote**

This class controls the page notes of the Checkout Confirm

Checkout Complete

a. **#checkoutComplete**

This class controls the entire scope of the Checkout Complete

i. **#checkoutComplete .container**

This class controls the container of the Checkout Complete

ii. **#checkoutComplete #pageNote**

This class controls the page notes of the Checkout Complete

iii. **#checkoutComplete #downloadFiles**

This class controls the download files information of the Checkout Complete

1. **#checkoutComplete #downloadFiles input**

This class controls the download files input of the Checkout Complete

iv. **#checkoutComplete .hdr-title**

This class controls the interior header titles of the Checkout Complete

v. **#checkoutComplete .container input**

This class controls the container input of the Checkout Complete

Client Account

a. **#clientAccount**

This class controls the entire scope of the Client Account

i. **#clientAccount h2**

This class controls the header titles of the Client Account

- ii. **#clientAccount .section**
This class controls the sections of the Client Account
- iii. **#clientAccount .logout**
This class controls the logout area of the Client Account
 - 1. **#clientAccount .logout a**
This class controls the logout link of the Client Account
 - a. **#clientAccount .logout a:hover**
This class controls the logout link while hovering over it of the Client Account
- iv. **#clientAccount #billInfo**
This class controls the billing info of the Client Account
 - 1. **#clientAccount #billInfo a**
This class controls the billing info link of the Client Account
- v. **#clientAccount #shipInfo**
This class controls the shipping info of the Client Account
 - 1. **#clientAccount #shipInfo a**
This class controls the shipping info link of the Client Account
- vi. **#clientAccount #paymentInfo**
This class controls the payment info of the Client Account
- vii. **#clientAccount #subscriptionBillInfo**
This class controls the subscription order billing info of the Client Account
- viii. **#clientAccount #subscriptionShipInfo**
This class controls the subscription order shipping info of the Client Account
- ix. **#clientAccount #subscriptionPaymentInfo**
This class controls the subscription order payment info of the Client Account
- x. **#clientAccount #orderDetails**
This class controls the order details of the Client Account
 - 1. **#clientAccount #orderDetails .list**
This class controls the order details list of the Client Account
- xi. **#clientAccount .hdr-title**
This class controls the interior header titles of the Client Account
- xii. **#clientAccount .body**
This class controls the body of the Client Account
- xiii. **#clientAccount #orderList .title, #clientAccount #subscriptionOrderList .title**
This class controls the titles of regular orders and subscription orders of the Client Account
- xiv. **#clientAccount #orderList, #clientAccount #subscriptionOrderList**
This class controls the regular orders and subscription orders of the Client Account

- xv. **#clientAccount #orderList thead th, #clientAccount #subscriptionOrderList thead th**
This class controls the table heads of the regular order and subscription orders of the Client Account
- xvi. **#clientAccount #orderList tbody tr td, #clientAccount #subscriptionOrderList tbody tr td**
This class controls the table bodies of the regular orders and subscription orders of the Client Account
- xvii. **#clientAccount #orderList .buttons, #clientAccount #subscriptionOrderList .buttons**
This class controls the buttons of the regular orders and subscription orders of the Client Account
- xviii. **#clientAccount #orderList thead tr th a, #clientAccount #subscriptionOrderList thead tr th a**
This class controls the table head links of the regular orders and subscription orders of the Client Account
 - 1. **#clientAccount #orderList thead tr th a:hover, #clientAccount #subscriptionOrderList thead tr th a:hover**
This class controls the table head links while hovering over them of the regular orders and subscription orders of the Client Account
- xix. **#clientAccount #orderList table, #clientAccount #subscriptionOrderList table**
This class controls the tables of the regular orders and subscription orders of the Client Account
 - a. **#clientAccount #orderList table thead th, #clientAccount #subscriptionOrderList table thead th**
This class controls the tables table heads of the regular orders and subscription orders of the Client Account
 - b. **#clientAccount #orderList table tbody, #clientAccount #orderList table tbody tr td, #clientAccount #subscriptionOrderList table tbody, #clientAccount #subscriptionOrderList table tbody tr td**
This class controls the tables table bodies of the regular orders and subscription orders of the Client Account
- xx. **#clientAccount #orderList .outOfStock**
THIS CLASS IS DEPRICATED
- xxi. **#clientAccount #orderList .exceedingStock**
THIS CLASS IS DEPRICATED
- xxii. **#clientAccount #myAccount**
This class controls the my account area of the Client Account
- xxiii. **#clientAccount #pageNote, #clientAccount .pageNote**
This class controls the page notes of the Client Account
- xxiv. **#clientAccount #clientAccount .body**
This class controls the client account body of the Client Account
- xxv. **#clientAccount .all-link**
This class controls the "View All Orders" link of the Client Account

- xxvi. **#clientAccount .links**
THIS CLASS IS DEPRICATED
- xxvii. **#clientAccount .buttons**
This class controls the buttons of the Client Account
- xxviii. **#clientAccount #otherStats**
THIS CLASS IS DEPRICATED
- xxix. **#clientAccount .points**
This class controls the reward points of the Client Account
- xxx. **#clientAccount .pagination**
This class controls the pagination of the Client Account
 - 1. **#clientAccount .pagination a**
This class controls the pagination links of the Client Account
 - a. **#clientAccount .pagination a:hover**
This class controls the pagination links while hovering over them of the Client Account
- xxxi. **#clientAccount .myerror**
This class controls the error messages of the Client Account
- xxxii. **#clientAccount .adminFile**
This class controls the download files of the Client Account
- xxxiii. **#clientAccount #outOfStock**
This class controls the out of stock messages of the Client Account
- xxxiv. **#clientAccount #exceedingStock**
This class controls the exceeding stock messages of the Client Account

Vendor Login

- a. **#vendorLogin**
This class controls the entire scope of the Vendor Login
 - #vendorLogin h2**
This class controls the header titles of the Vendor Login
 - #vendorLogin #pageNote**
This class controls the page notes of the Vendor Login
 - #vendorLogin .form-label**
This class controls the form labels of the Vendor Login
 - #vendorLogin .form-field**
This class controls the form fields of the Vendor Login

Vendor Account

- a. **#vendorAccount**
This class controls the entire scope of the Vendor Account
 - i. **#vendorAccount h2**
This class controls the header titles of the Vendor Account

- ii. **#vendorAccount hr**
This class controls the horizontal rule of the Vendor Account
- iii. **#vendorAccount .vendorlink**
This class controls the vendor links of the Vendor Account
- iv. **#vendorAccount .pagination**
This class controls the pagination of the Vendor Account
- v. **#vendorAccount #pageNote**
This class controls the page notes of the Vendor Account
- vi. **#vendorAccount .myerror**
This class controls the error messages of the Vendor Account
- vii. **#vendorAccount .section**
This class controls the sections of the Vendor Account
- viii. **#vendorAccount .logout**
This class controls the logout area of the Vendor Account
 - 1. **#vendorAccount .logout a**
This class controls the logout link of the Vendor Account
 - a. **#vendorAccount .logout a:hover**
This class controls the logout link while hovering over it of the Vendor Account
- ix. **#vendorAccount #billInfo**
This class controls the billing info of the Vendor Account
- x. **#vendorAccount #orderDetails**
This class controls the order details of the Vendor Account
 - 1. **#vendorAccount #orderDetails .list**
This class controls the order details list of the Vendor Account
- xi. **#vendorAccount .hdr-title**
This class controls the interior header titles of the Vendor Account
- xii. **#vendorAccount .body**
This class controls the body of the Vendor Account
- xiii. **#vendorAccount #myAccount**
This class controls the my account area of the Vendor Account
- xiv. **#vendorAccount #orderList**
This class controls the order list area of the Vendor Account
 - 1. **#vendorAccount #orderList .title**
This class controls the order list area title of the Vendor Account
 - 2. **#vendorAccount #orderList thead th**
This class controls the order list area table heads of the Vendor Account
 - 3. **#vendorAccount #orderList tbody tr td**
This class controls the order list area table bodies of the Vendor Account

4. **#vendorAccount #orderList .buttons**
This class controls the order list area buttons of the Vendor Account
5. **#vendorAccount #orderList thead tr th a**
This class controls the order list area table heads links of the Vendor Account
 - a. **#vendorAccount #orderList thead tr th a:hover**
This class controls the order list area table heads links while hovering over them of the Vendor Account
6. **#vendorAccount #orderList table**
This class controls the order list area tables of the Vendor Account
 - a. **#vendorAccount #orderList table thead th**
This class controls the order list area tables table heads of the Vendor Account
 - b. **#vendorAccount #orderList table tbody, #vendorAccount #orderList table tbody tr td**
This class controls the order list area tables table bodies of the Vendor Account
- xv. **#vendorAccount .buttons**
This class controls the buttons of the Vendor Account
- xvi. **#vendorAccount #billInfo**
This class controls the billing info of the Vendor Account
- xvii. **#vendorAccount #otherStats**
This class controls the other stats of the Vendor Account
- xviii. **#vendorAccount .large**
This class controls the large of the Vendor Account
- xix. **#vendorAccount .productActionButtons**
This class controls the product buttons (Add New Product, etc.) of the Vendor Account
- xx. **#vendorAccount .productActionOptions**
This class controls the product options (Show Category, etc.) of the Vendor Account
- xxi. **#vendorAccount #productList**
This class controls the product list of the Vendor Account
 1. **#vendorAccount #productList thead tr th**
This class controls the product list table heads of the Vendor Account
 2. **#vendorAccount #productList thead tr td**
This class controls the product list table heads of the Vendor Account
- xxii. **#vendorAccount #vendorTabs**
This class controls the vendor tabs of the Vendor Account
 1. **#vendorAccount #vendorTabs .tabs-on**
This class controls the vendor product navigational tabs (ON) of the Vendor Account
 2. **#vendorAccount #vendorTabs .tabs-off**
This class controls the vendor product navigational tabs (OFF) of the Vendor Account

- xxiii. **#vendorAccount .vendorTable**
This class controls the vendor table of the Vendor Account

Registry List

- a. **#registryList**
This class controls the entire scope of the Registry List
 - i. **#registryList .content-even**
This class controls the column formatting of the Registry List
 - ii. **#registryList .content-odd**
This class controls the column formatting of the Registry List
 - iii. **#registryList .title**
This class controls the titles of the Registry List
 - iv. **#registryList #registryListResults**
This class controls the results of the Registry List
